

## Alberobello

Alberobello is a small town located in Puglia, in the south of Italy. The town is full of houses known as trulli, which are structures with conical-shaped roofs made from layers of limestone. The walls are also covered in limestone, making them white and sturdy, and they are also said to protect against UV rays, which are particularly strong in this area. These unique houses are a registered world heritage site.

The pieces of this paper craft can be nested inside one another like Russian matryoshka dolls. You can also display them in size order, with the biggest one at the front, to create a miniature town with a three dimensional perspective.

## Assembly Instructions

- 1: Carefully cut out the parts. Write the part's number (A~J) on the back of each one.
- 2: Make mountain folds along the dotted lines, as indicated.
- 3: Attach the pieces together in order of the numbers on the glue spots, and assemble the parts.

- Parts sheet: 5 pages
- Number of parts: 10

### Handy Hints

Trace along the folds with a used pen (no-ink) to get a sharp, easier fold.

## Notation Key

----- Mountain fold  
● Make a mountain fold.

———— Scissors line  
● Cut along the line.

### Tools and Materials

Scissors, set square, glue (such as woodwork glue), metal rod, spatula, a used pen, toothpicks, tweezers (useful for handling small parts).

### Assembly Tip

Before gluing, crease the paper along mountain fold and valley fold lines and make sure rounded sections are nice and stiff.

### Caution

This craft requires the use of glue, scissors, tweezers, and other tools which may be dangerous to young children. Please keep them out of reach of children while you work.

Each house is assembled in the same way. Begin with the one you think looks the easiest size to make.

The biggest house, A, has a bottom to it. Make mountain folds as indicated, and attach 9.

When not on display, put houses B to J inside house A, nesting each inside the bigger one, and close the lid.

**CAUTION**  
Do not hit other people with the pointed edges.  
Doing so could result in injury.  
Adults should make sure that children observe this caution.
